EMPLOYMENT HISTORY

Owner at Vertical Ventures, Gothenburg, Sweden

July 2023 — Present

Freelance helicopter pilot and task specialist, consultant in EFB matters.

Flight Ops Support & EFB Admin at Avincis, Gothenburg

May 2022 — Present

Working closely with the NPCT and NPCO, and administrating the companys EFB architecture. Occasionally working as HEMS Technical Crew with the H145 and AW169.

Boatman at Klippans Båtmansstation, Gothenburg

June 2021 — August 2022

3 shift mooring vessels in Swedens largest harbour, operating heavy working boats.

Volunteer at Covid ward at Uppsala University Hospital, Uppsala

April 2020 — May 2020

Helping out the hard working medical staff during the toughest of covid times.

Founder, CEO and CPO at Hubert.ai, Uppsala

January 2016 — January 2020

Founded and built the smal tech company Hubert.ai which today has grown to delivering one of the best AI solutions for recruitment in the world. I took over as CEO during the summer of 2018.

Timekeeper at Nepron Timing, International

March 2015 — September 2016

Responsible for planning, execution and evaluation of timekeeping on different races around the world. I was, for example, responsible for the timekeeping of the Swimrun World Championship 2016. The job demanded good teamwork, taking much responsibility and thinking quickly, as unexpected things always happened.

Technical consultant at Uppstuk, Uppsala

October 2012 — September 2016

Consulting student. Have been working with different forms of electronic and mechanical manufacturing, as well as installation of technical systems.

○ **Technical salesman, part-time at Kjell & Company, Stockholm**

August 2008 — February 2013

Sales of household electronics over the counter. Highly service-minded work with a primary focus on solving the customers challenges and creating a great customer relation.

○ **Youth leader at Österhaninge församling, Vendelsö**

September 2008 — August 2010

Planned and executed activities close to home and on camps around Sweden. The job demanded great social skills, good planning and a sense of empathy.

✦ **EXTRA-CURRICULAR ACTIVITIES**

○ **Life boat crew at Swedish Sea Rescue Society, Rörö Island, Gothenburg**

May 2019 — Present

Rescue Station Rörö is manned 24/7, year round, and is one of Swedens most active rescue stations. My mission as a life boat crew is to respond to emergencies at sea, ranging from fuel exhaustion to cardiac arrest.

○ **Own-regime charity, Tanzania**

January 2009 — September 2012

Ran, together with four friends, a charity project in Bukoba, Tanzania. The project was focused on providing families in need with electric light, clean water and cooking possibilities. This included project planning, evaluating installation systems and performing the actual installations on site.

🎓 **EDUCATION**

○ **Helicopter pilot CPL(H) + ATPL(H), SPU Flight Academy, Säve, Gothenburg**

August 2020 — Present

○ **School of Entrepreneurship, Uppsala universitet**

August 2016 — January 2017

One semester containing entrepreneurial courses in e.g. economics, law and business development.

○ **Master in Industrial Management and Innovation, Uppsala universitet**

August 2013 — June 2016

Two-year master degree with focus on industrial development, leadership and organizational management.

○ **Bachelor in Mechanical Engineering, Uppsala universitet**

August 2010 — June 2013

Three-year bachelor focusing on product development, design, material science, business economics, leadership and constructional science.

○ **Technology, electronics and programming, Fredrika Bremer High School, Haninge, Stockholm**

August 2007 — June 2010

Technical high school program with focus on electronic and programmatic development.
